

Michael Curl

Michael Curl has worked for more than 15 years with students, teachers, and administrators in public school systems. Michael's professional roles include various teaching and program leadership roles in K–12. In his current position, the role of principal is geared towards the collaborative nature of the professional learning community. Curl believes in having the experts in the classroom collaborate in order to find what is best for students on the campus. Curl holds a Master of Education in Educational Administration from Texas Southern University.

“Sitting in on a Framework session as an early career teacher in a high-poverty area, I became more aware of the resources I had and how to gauge those of my students. I realized so much about myself and the path I treaded. Just learning the vocabulary of resources and the continuum of stability and instability made everything clearer to me. Fluctuation and fluidity are natural and constant. Finding a path isn't easy for everyone, but it is possible for everyone to navigate the world when the hidden rules are taught.”

Selected workshops presented by Michael Curl

- ♦ A Framework for Understanding Poverty
- ♦ Emotional Poverty
- ♦ How the African-American Experience Affects the Classroom and Strategies for Success
- ♦ Research-Based Strategies

With consultants and publications around the world, aha! Process helps communities move individuals, families, and entire neighborhoods out of poverty and into sustainability and growth.
